(54)

Bourinot, Lady

March 11th, 1918

Lady Bourinot,

87 Belgrave Road,

London, S.W.

Dear Lady Bourinot:

I have asked Professor Alexander, the Professor of English in University College, to give me an outline of what would be required for your son's M.A. work in English. In answer he has asked me to refer to the announcement of Graduate Courses a copy of which I am sending to you. He also stated that any work which he may be able to cover(the possibilities of access to books must be very small) would be accepted by the Department, and further, that the requirement of actual attendance would be dispensed with. On the other hand, the difficulty is that the student must have graduated in honour English in order to qualify for his M.A. work. If he has not done so at least two years' work would be necessary. Your son took I think the course in Political Science and Professor Alexander asks whether it might not be better for him to follow on in that department or in the department of History. He will find outlines of both courses in the announcement of Graduate Studies.

I hope that you get good word from him, and when you are next writing will you please give him my kind remembrances ?

Yours sincerely,

President.
